

Material Safety Data Sheet

TAG BODY ART

Water Based Make Up/ Face Paint Products (Hydrocolours)

TAG Body Art products are manufactured in accordance with FDA & European Union guidelines. They conform to the USA ASTM D 4236 & European 76/768/EEC & CE EN 71 CODES.

The components & end resulting products are just as safe to use on the face & body as any good quality cosmetic. Our ingredients meets cosmetic guidelines both in the United States & the European Community & is designed to be used on children & adults.

The data presented in this “material data safety sheet” represents the safety information on each component of our product. The components , as a final commodity , are stable , easy on the skin , & wash off with soap & water .

Make up can also be removed with many types of facial cleansers , or baby oil.

Like most Make-up , dark colours on some people may leave a bit of residue on the skin for a few hours after washing . this also depends on how long the make- up remains on the skin & the type of complexion of the person. FDA recommends that all red make-up be kept at least one half inch from eyes.

Product Components

Product Ingredients : (water based product)

Our products contain some or all of the following ingredients:

Calcium Carbonate , Dextrin , Beeswax , Glycerine, Titanium Dioxide , Iron Oxides , D&C Red 27 (C.I.45410). FD&C Yellow5 (C.I. 19140), FD&C Blue 1 (C.I.42090) Fragrance , Mica, & Non Toxic Fluorescent Pigments (Neon Colours).

Product Name	Formula	Health	Flammability	Reactivity	First aid measures	C.A.S N
